DETAILED ACTION

Examiners Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 19-24 have been canceled.

Allowable Subject Matter

Claim 1-4, 6-13 and 14-18 allowed.

The following is an examiner's statement of reasons for allowance:

A third electrical insulation layer being disposed upon said second electrical insulation layer, where said third electrical insulation layer is not disposed upon an upper surface of said heating device;

A fourth electrical insulation layer being disposed upon said upper surface of said heating device and upon said third electrical insulation layer.

The limitations, in combination with the limitations of the other claims have not been anticipated, nor rendered obvious by any prior art of record.

The closest reference, Lille et al (US Publication Number 2005/0018348), discloses the top layer in contact with the heating device, however, a layer corresponding to the third layer is not present.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
